

One week until ERS 2017!

Help us reach the 10,000 target before we arrive in Milan!
Please submit all your consented patients as soon as possible.

There are currently 823 cases sitting waiting to be submitted to the registry. This means more than 10,000 patients have already been recruited but we need YOU to submit these for data verification so that we can tell the world!!

The cases must be in the "SUBMITTED" section of your account to be recognised by the registry and count towards recruitment figures and data analysis.
