

A Massive Thank You!!

October 2015

EMBARC are delighted to announce that over 1300 patients have been recruited in just 6 months, smashing the recruitment target of 1000 by April 2016. This is a great credit to the work of researchers participating in the registry right across Europe and further afield.

EMBARC Chairs
Dr James Chalmers (UK), Dr Eva Polverino (ES) & Dr Stefano Aliberti (IT)

First Results of the Bronchiectasis Registry

Results from the first 1000 patients recruited into EMBARC were released last month during the European Respiratory Society Conference in Amsterdam. We were overwhelmed at the attendance of this symposium, with the largest auditorium filled from start to finish. The presentation of the first results can be found on the EMBARC website or by clicking [here](#)

Building on this, EMBARC is organizing the 1st World Bronchiectasis Conference in cooperation with PROGNOSIS, the German Bronchiectasis Registry, and BREATH, the Hannover site of the German Centre for Lung Research (DZL). For more information please [visit](#)

Congratulations!

Congratulations to Dr Sabina Skrgat from Slovenia for being EMBARC's highest recruiter over the past three months - excellent work!

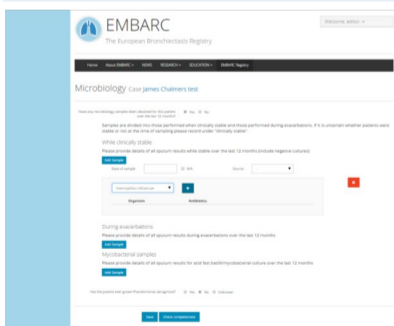

Also congratulations to Dr Michal Shteinberg for registering the first Israeli participant, and Dr Daiana Stolz for registering the first Swiss participant - we look forward to seeing more data!

1st World Bronchiectasis Conference

“Joining forces for a breakthrough in bronchiectasis”
July 07 – 09, 2016, Hannover, Germany

Case Report Form and Data Entry

The CRF has been designed to make data entry as easy as possible and is continuously being improved, however we are aware of some common problems experienced with the microbiology page.

- Please use Google Chrome or Firefox (Internet Explorer may experience compatibility problems)
- After an organism is selected, the adjacent blue box with white cross must be selected.
- Please contact the study coordinator for any technical problems or CRF queries.

Please note a change in contact email for Study Coordinator, Megan Crichton

m.l.crichton@dundee.ac.uk

The quality of data being received is excellent.

Thank you again for the outstanding work and continued support!!

If you have not already done so - please do not forget to submit your signed Data Sharing Agreement to the EMBARC team. Without this we cannot pay you for your hard work!!
